Chief Technology Officer,
Console Connect
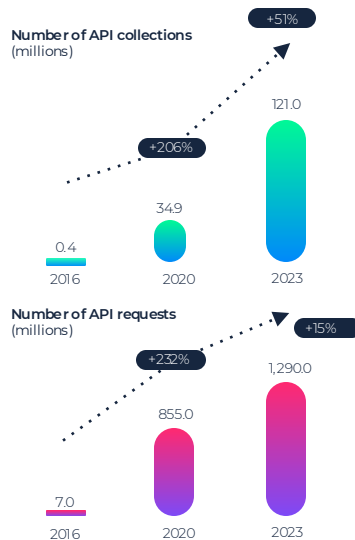

Opportunity in the **API economy**

Unlocking billions in connectivity and edge revenue

The API economy is exploding, with network APIs poised to unlock significant new revenue streams. McKinsey predicts **$100B-$300B** in the next 5-7 years. This is your opportunity.

Enablers of the API economy

Growth in API standards	API & automation integration	Cloud-native architectures	Open ecosystems	New API-as-a-Service models

API growth trajectory is expected to continue **over next 5 years**:

Number of API collections (millions)

+51%

121.0

+206%

34.9

0.4
2016   2020   2023

Number of API requests (millions)

+15%

1,290.0

+232%

855.0

7.0
2016   2020   2023

Growth in the API market expected to be sustained

50-60%
CAGR of the API-as-a-Service market from 2023-28

20-25%
CAGR of the **Open** API market from 2023-2033

20-25%
CAGR of the global **telecom** API market from 2023-2030

Introducing
Kraken —

- A low code API mapping solution.

- Its core is an API mapping engine that translates between Source and Target APIs with totally different data structures

- The engine effectively acts as a bridge that allows disparate APIs to communicate effectively and seamlessly.
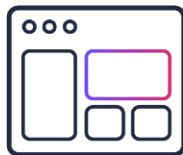

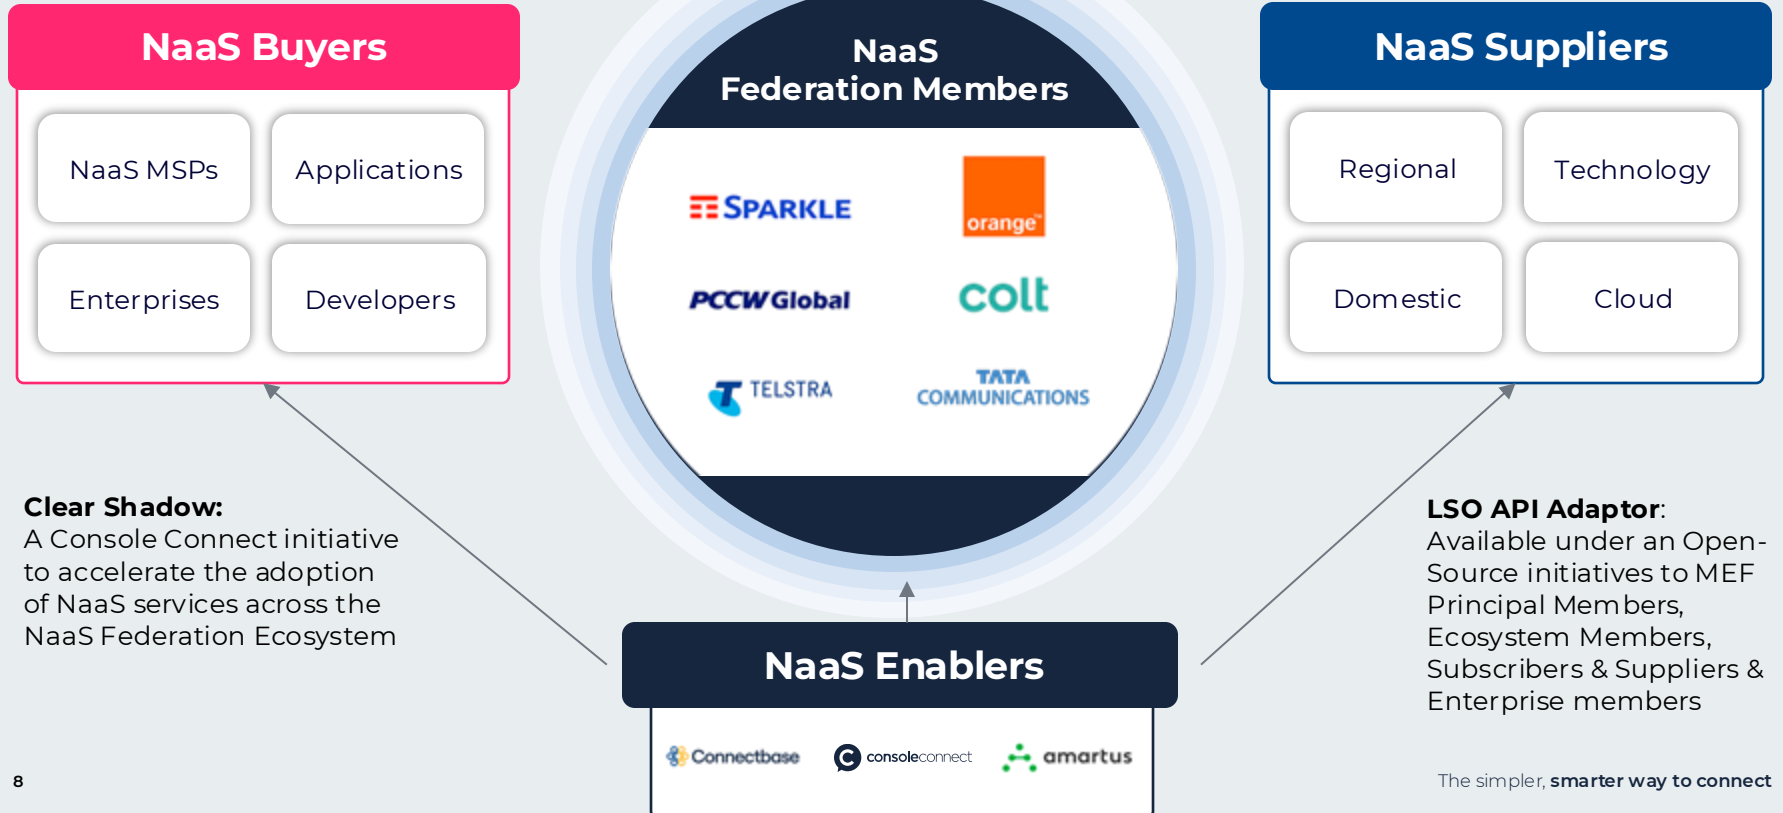

Why **Open Source?**

Fosters collaboration

An open licence fosters collaboration and accelerates development.

Drives adoption

Lowering the barrier to adoption will accelerate LSO Sonata API utilization.

Levels the playing field

Enabling all players to participate and innovate within the API economy.

Collective effort

Delivers benefits to the entire ICT industry and value chain.

A low code solution to
MEF LSO API ▬

- Geographic address management.

- Quote management.

- Product ordering management.

- Product inventory.
